National Emergency Response and Recovery Training Center™

MEDICAL MANAGEMENT OF CHEMICAL, BIOLOGICAL, RADIOLOGICAL, NUCLEAR AND EXPLOSIVE (CBRNE) EVENTS

PER-211

This course provides a strong emphasis in developing a multi-discipline, whole-community team approach to planning, preparing, responding, managing and recovering from an event involving Chemical, Biological, Radiological, Nuclear or Explosive (CBRNE) agents, a coordinated complex terrorist attack (CCTA), or an active shooter/hostile event (ASHE). To reinforce this multi-discipline team approach, participants should optimally be from fire services, law enforcement, Emergency Medical Services (EMS)/hospital, public health, public works, and emergency management organizations.

Topics

- Identifying Hazardous/Active Threat Environments.
- Responding to a Hazardous/Active Threat Environment using the RAPID-Care algorithm.
- Personal protective equipment (PPE) & protective measures for the Hazardous/Active Threat Environment.
- Identification and decontamination of victims exposed to a CBRNE agent.
- Triage and medical care of casualties during a CBRNE, CCTA or ASHE incident.

Prerequisites

There are no prerequisites for this course.

Recommendations

Basic EMS Concepts for CBRNE Events (AWR-111-W) and WMD/Terrorism Awareness for Emergency Responders (AWR-160-W)

Class Size

Minimum 30 Participants

Course Length

2 Days (16 hours)

Venue

Jurisdiction
